pranjalG

Senior Software Engineer with 3+ years of experience building and scaling production-grade mobile and full-stack applications across enterprise energy monitoring and smart-grid analytics. Strong expertise in Flutter, Dart, Angular, TypeScript, .NET, REST APIs, and database optimization, with demonstrated ownership of application architecture, performance engineering, CI/CD, and production releases. Led engineering initiatives supporting a cross-platform application with 1000+ downloads, reducing dashboard load time by 40% and crash rates by 35%. Experienced in mentoring engineers and delivering backward-compatible platform migrations.

Skills

Languages	Dart, TypeScript, JavaScript, C#, SQL, C++
Mobile	Flutter, BLoC, Cubit, Provider, Riverpod, Android, iOS
Frontend	Angular, React.js, RxJS, Responsive UI
Backend	.NET, Node.js, Express.js, REST APIs
Architecture & Data	Clean Architecture, SOLID principles, System Design
Cloud, DevOps, and AI	AWS, Firebase, Docker, Jenkins, CI/CD, Generative AI, RAG, LLM APIs
Testing & Quality	Unit Testing, Widget Testing, Integration Testing, Mockito, Performance Profiling, Flutter DevTools
Engineering Practices	Git, Code Reviews, Agile/Scrum, Technical Documentation, Mentoring

Technical Experience

Senior Software Engineer | **my eWatch online — Enterprise Energy Monitoring Platform** **Aug 2026 — Present**
Secure Meters Ltd. *Udaipur, Rajasthan*

- Developed the PM-KUSUM solar monitoring app for 50+ EPC customers on my eWatch online itself, added a new database role with role-based routing, single-site and multi-site dashboards, generation vs. earnings graphs and alerts feature.
- Extending eWatch for LPI (large processing industry) customers with 100+ metering locations per factory, while maintaining backward compatibility of source code for existing users.
- Led the Flutter 3.27.1 to 3.44.8 migration, updating code for breaking changes across Dart packages.
- Mentor two junior engineers: assign and track tasks, review code and evaluate performance.

Software Engineer | **my eWatch online mobile app** **Jan 2024 — Jul 2026**
Secure Meters Ltd. *Udaipur, Rajasthan*

- Implemented the survey flow end to end using a parent-child BLoC architecture, adapting patterns from the installation flow.
- Designed the meter commissioning flow, with the UI driven by Skyline Gateway 110 responses. Ran multiple rounds of robust UI/UX testing and integration testing so field installers could complete commissioning efficiently.
- Added the Reports feature: PDF downloads of daily, monthly, shift-wise and metering-location-wise energy consumption.
- Refactored core modules with BLoC and Clean Architecture, reducing crash rate by 35%.

GET - Graduate Engineer Trainee **Adaptricity — Smart Grid Analytics Platform** **Jul 2023 — Sep 2024**
Secure Meters Ltd. *Udaipur, Rajasthan*

- Contributed to application software development and system analysis while learning production engineering practices.
- Independently developed Ghar-Ki-Khoj, a MEAN-stack rental-property discovery application.

Projects

GyanAI — Enterprise Agentic Knowledge Platform **Jul 2026**
Agentic Premier League, Udaipur *Silver Medalist (Solo Build)*

- Built a full-stack RAG platform solo using only free-tier tools, competing against Rajasthan-wide teams and winning silver.
- Designed a grounded Q&A pipeline — chunked and embedded documents via Gemini, stored vectors in Supabase pgvector, and retrieved top-3 chunks at query time to eliminate hallucinated answers.
- Enforced citation-backed, confidence-scored responses and a secure backend proxy to keep API keys off the client.

Education

Bachelor of Engineering in EEE (Electrical and Electronics) | MBM University, Jodhpur | CGPA: 8.38/10 **May 2023**
AICTE Pragati Scholarship (1937 female candidates across Nation, only 2 from Rajasthan) 2019 — 2023

Certifications

AI Powered Product Management — IIT Madras Pravartak 2026
Generative AI Leader Certification — Google 2026
Introduction to Systems Architecture — IBM 2026
Flutter and Dart: Developing iOS, Android, and Mobile Apps — IBM 2025
